Student has developed a competent knowledge of applicable portfolio and business practices	Student has developed a beginning knowledge of applicable portfolio and business practices	Student has <b>not</b> developed a beginning knowledge of applicable portfolio and business practices.

\*The goal of mastery in student learning outcomes is established for both the B.F.A and the B.S. However, it would be anticipated that more B.F.A. students would exceed standard (achieve mastery) than B.S. students would exceed standard, due to talent, commitment and more advanced studio work. Most B.S. students would likely approach standard or meet standard, but they would not typically exceed, due to fewer advanced studio classes and more elective courses. This wide range of evaluative options allows for B.S. students with talent and motivation to strive for high levels of achievement within the context of the B.S. program and be recognized accordingly.
